

For Your Safety!

As we navigate through these difficult times, we ask that our clients and visitors to Salon Independence be respectful of the following social distancing standards. The safety of our style experts and clients are always our top priority, and the below steps are representative of the local and state safety mandates.

Thank you for your understanding and patience!

Wait in your car until your style expert calls you!

To comply with state and local regulations, we ask that you **DO NOT** come into Salon Independence prior to your appointment. **Please wait in car and your style expert will call you when he/she is ready for you to enter the building.** This allows the previous client time to leave, while also allowing time for your style expert to properly disinfect their suite for your visit. Of course, if it is time for your appointment and you have not heard from your style expert, please feel free to contact them.

No walk-ins — but we might still get you in!

To comply with state regulations, we are currently **NOT doing walk-ins!** However, we still might be able to get you in right now! Simply visit the link below, go to Our Style Experts page and contact one of our style experts to check on availability:

Check our style experts' availability: www.salonindependence.com

Alivia Smith (Cosmetologist): **812-592-4644**

Allie Douglas (Cosmetologist): **812-374-7479**

Sheri Romine (Stylist): **317-412-0393**

Taylor Rae Baughman (Cosmetologist): **812-614-6900**

Reschedule if you feel sick!

If you or someone in your household has been experiencing any COVID-19 symptoms, it is always best that you stay home and not go to your appointment. **Our style experts will be more than happy to reschedule your appointment!** For the most up-to-date list of symptoms, please visit the Centers for Disease Control and Prevention's (CDC) website: <https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>.

Come alone to appointments!

Please try to limit bringing others with you to your appointments. **If at all possible, please come alone to aid in preventing the spread of COVID-19 and other germs.** However, we understand this may not always be preventable when it comes to children and other guests. Please just be sure that your guests always stay with you in the suite where you are having your services done.

Protect yourself and others!

We encourage all of our clients and style experts to follow the state, local and CDC guidelines when it comes to protecting yourself and others from the spread of COVID-19. In line with state mandates, **Salon Independence will be taking the following steps to ensure the safety of our clients and style experts:**

- Style experts and clients **MUST WEAR MASKS** while at Salon Independence. **NO MASK, NO APPOINTMENT!** Please try to wear your own mask to your appointment. If you do not have a mask, we may be able to provide you with one, but supplies are severely limited.
- Style experts and clients are asked to **FOLLOW PROPER HAND HYGIENE** while at Salon Independence. We have placed hand sanitizer in the lobby for anyone's use.
- Style experts will be **FULLY DISINFECTING** their suite **AFTER EACH VISIT.**
- Beyond our normal cleaning, **INCREASED DISINFECTION OF HIGH-TOUCH AREAS** will take place throughout our facility.
